2. Zet onderstaande begrippen in volgorde van belangrijkheid in specificity (met betrekking tot CSS): 
 - a. 
 - b. Classes, pseudo-classes, attribute
 - c. Inline styles
 - d. Elements, pseudo-elements
3. Wat is de achtergrondkleur van het div-element? 

```

div {
  background-color: yellow;
}
.first-div {
  background-color: blue;
}
div.first-div#first-div {
  background-color: red;
}
#first-div {
  background-color: green;
}
.first-div#first-div {
  background-color: purple;
}
.first-div.second-div.third-div.fourth-div {
  background-color: aqua;
}
</style>
</head>
<body>
  <div class="first-div second-div third-div fourth-div" id="first-div">
    JSC
  </div>
<script>
</script>

```

4. Wat is de breedte van het div-element?

```
div {
    background-color: yellow;
    width: 300px;
}
.first-div {
    background-color: blue;
}
div.first-div#first-div {
    background-color: red;
}
#first-div {
    background-color: green;
    width: 35px;
}
.first-div#first-div {
    background-color: purple;
    width: 500px;
}
.first-div.second-div.third-div.fourth-div {
    background-color: aqua;
}
</style>
</head>
<body>
<div class="first-div second-div third-div fourth-div" id="first-div">
    JSC
</div>
```

5. Wat is de hoogte van het div-element?

```
div {
    background-color: yellow;
    width: 300px;
    height: 50px;
}
.first-div {
    background-color: blue;
}
div.first-div#first-div {
    background-color: red;
    /* height: 250px; */
}
#first-div {
    background-color: green;
    width: 35px;
}
.first-div#first-div {
    background-color: purple;
    width: 500px;
}
.first-div.second-div.third-div.fourth-div {
    background-color: aqua;
}
</style>
</head>
<body>
<div class="first-div second-div third-div fourth-div" id="first-div">
    JSC
```
